HARTWELL MEDICAL

# CombiCarrierII®

## The 2 in 1 Scoop / Backboard

- Versatile Patient Transfer Device**  
 Catering to the needs of each patient, the CombiCarrierII may be used as a scoop stretcher or a full backboard.
- Auto-Lock Latch System**  
 Simple, intuitive design minimizes training. Recessed side latch is positioned away from patient. Locks instantly during application. Manual release required during removal from patient.
- Concave Patient Surface**  
 Provides excellent lateral support and improves patient's sense of security. Minimizes movement of patient's spine during lifting and transfer. Continuous inner edge eliminates panel pinch points.
- Operates like a Backboard for Vehicle Extrication**  
 Patient can be rotated and slid out onto the CombiCarrierII during auto extrication. Four patient restraint straps are included.
- Continuous Head Support Surface**  
 Improves neutral alignment and minimizes head movement during application and removal. Accommodates various disposable head immobilizers as well as the recently introduced durable CombiCarrierII Head Immobilizer, Model CC 3400H.
- Seamless Plastic Construction**  
 No rivets, drive screws or roll pins. High density polyethylene is easily cleaned and disinfected. Helps comply with CDC and OSHA guidelines. Foam filling makes it ideal for water rescue.

### SPECIFICATIONS

MODEL	CC 2200P
DIMENSIONS	73.50" L x 16.50" W x 2.19" D (186.7 cm x 41.9 cm x 5.6 cm D)
WEIGHT	15.6 lbs. (7.1 kg)
MATERIALS	
Shell	High Density Polyethylene
Pins	Fiberglass
Filling	Urethane Foam
Latches	Aluminum, Stainless Steel
LOAD CAPACITY	450 lbs. (205 kg)

Our Company philosophy is one of constant improvement. Specifications are subject to change without notice due to industry trends or advances in technology.

FASPLINT FULLBODY  
+  
CombiCarrierII

### Ideal Companion Product for New Protocols

Provides an excellent platform for the FASPLINT FULLBODY, HALFBACK and EVAC-U-SPLINT Mattress. Serves as the ideal patient transfer device that can be removed and placed back on the ambulance, eliminating loss of equipment.

### Move the board not the patient

Can be easily separated at either end. Eliminates unnecessary movement making it ideal for patients with suspected hip, pelvic and spinal injuries.

### X-Ray Compatible

Clear center section provides unobstructed A/P view of patient's spine (see photos). Split-design allows for simple, easy removal and application for detailed X-ray examination.
