

# FASPLINT®

## The Semi-Disposable Vacuum Splint

- F**ast application reduces on-scene time
- A**bility to conform to each patient
- S**tabilizes injury without unnecessary pressure
- P**liable material performs in cold weather
- L**ow cost makes it disposable when necessary
- I**nstructional pictograms for ease of use
- N**on-magnetic valve is X-Ray and MRI compatible
- T**apered anatomical design in 3 popular sizes

Designed for the really messy trauma call or those situations when equipment retrieval is difficult, the FASPLINT® provides optimum immobilization at a very affordable price.

This semi-disposable vacuum splint provides secure immobilization without circumferential pressure, eliminating the potential for tissue, vessel and nerve damage. Unlike air and board splints, the FASPLINT molds to the contours of the patient's injury, so even difficult fractures and dislocations can be stabilized easily and quickly with a level of comfort that is unmatched by any other splinting technology. If ease of use and quality care are important issues for your service, then the FASPLINT deserves serious consideration.

Current users say the FASPLINT is one of the most versatile tools they have ever had on their rig. It's great for simple and angulated extremity fractures, dislocated shoulders and hip injuries, pediatric immobilization and even a combination head immobilizer and backboard pad. By filling the voids underneath the patient and molding to the contours of the patient's head and torso, the FASPLINT provides a firm yet comfortable head and back support.

Model	Description	Dimensions
FS 9000RC	3 Splint Kit with aluminum pump and rectangular case	19" x 11.75" x 7" in carry case (48cm x 30cm x 18cm)
FS 9000RCPL	3 Splint Kit, with economy pump and rectangular case	19" x 11.75" x 7" in carry case (48cm x 30cm x 18cm)
FS 801-10	Small (10 per box)	19.5" x 14" (50cm x 33 cm)
FS 802-10	Medium (10 per box)	27.5" x 20" (70cm x 51cm)
FS 803-10	Large (10 per box)	40" x 30" (102cm x 76cm)

If equipment loss is a major factor within your department, then choose the FASPLINT. With just a few uses, the FASPLINT can cost less than cardboard, padding and roller gauze. Plus, it's faster, easier to apply and provides more secure immobilization.

**Quick Application • Optimum Immobilization • Low Replacement Cost**
